

# HEMANT SHAHI

Nawada, Bihar, India | shahihemant189@gmail.com | linkedin.com/in/hemantshahi-14677b259 | hemantshahi.github.io

## EDUCATION

### Motihari College of Engineering

Bachelor of Technology, Computer Science and Engineering

Nov 2022 – May 2026

Motihari, Bihar, India

### FIITJEE / KLS College Nawada

Higher Secondary Education, PCM

Jun 2019 – Mar 2021

Nawada, Bihar, India

## EXPERIENCE

### NIELIT

Summer Intern

May 2025 – Jun 2025

Buxar, Bihar, India

- Performed data analysis and visualization tasks using Python, Excel, and Power BI to support departmental reporting.
- Assisted in building dashboards and automated reporting pipelines, reducing manual reporting time by 30%.
- Worked with structured datasets using SQL for querying, cleaning, and generating actionable insights.

### IIT Kharagpur – AI4ICPS I Hub Foundation

Internship Trainee

Sep 2023 – May 2024

Motihari, Bihar, India

- Trained and evaluated machine learning models for applied AI research problems using Python, Scikit-learn, and TensorFlow.
- Conducted data preprocessing, feature engineering, and model validation on real-world datasets.
- Collaborated with research team to document findings and prepare technical reports on AI/ML experiments.

### Salesforce

Salesforce Developer (Virtual Internship)

Nov 2023 – Jan 2024

India

- Developed and customized Salesforce CRM solutions including Apex triggers, Flows, and Lightning components.
- Worked with Salesforce D365 CE and Power Platform to automate business workflows and improve CRM efficiency.
- Integrated APIs and configured custom objects/fields to meet client-specific data management requirements.

## PROJECTS

### PlacePredict AI – Placement Prediction & Skill Gap Analysis

Python | Machine Learning | Power BI | SQL

- Built a machine learning model using Random Forest and Logistic Regression to predict student placement outcomes with 87%+ accuracy based on academic performance, skills, and internship data.
- Implemented a skill gap analysis module that compares student skill profiles against job requirements and recommends targeted upskilling paths for improved placement probability.
- Designed an interactive Power BI dashboard for institutions to monitor placement trends, skill gaps, and cohort performance in real time.
- Preprocessed and managed student data using Python (Pandas, NumPy) and MySQL, ensuring clean, structured input for model training.

### Retail Customer Behaviour Prediction

Python | Scikit-learn | EDA | Machine Learning

- Developed a customer behavior prediction model using classification algorithms (XGBoost, Logistic Regression) to forecast purchase likelihood and churn based on transactional and demographic data.
- Performed extensive exploratory data analysis (EDA) and feature engineering to identify key behavioral drivers including recency, frequency, and monetary (RFM) metrics.
- Applied customer segmentation using K-Means clustering, enabling targeted marketing strategies and personalized product recommendations.
- Evaluated models using precision, recall, F1-score, and ROC-AUC, achieving 85%+ accuracy on test datasets.

## TECHNICAL SKILLS

**Languages:** Python, SQL, Java, HTML/CSS

**Data & Analytics:** Power BI, Excel, Pandas, NumPy, Matplotlib, Seaborn, EDA, Data Visualization

**Machine Learning:** Scikit-learn, XGBoost, TensorFlow, Random Forest, Logistic Regression, K-Means Clustering

**Databases:** MySQL, SOQL (Salesforce)

**CRM & Platforms:** Salesforce (Apex, Flows, Lightning), Microsoft D365 CE, Power Platform

**Tools & Other:** Git, GitHub, Jupyter Notebook, VS Code, OCI Generative AI

## CERTIFICATIONS

- OCI Generative AI – Oracle
- Data Analytics Essentials – Cisco
- 5-Day AI Agents Intensive Course – Google
- Programming in Java – NPTEL / Online
