Contact - 8271633953|Email- kritikakumari.patil2004@gmail.com

OBJECTIVE

Motivated Electrical and Electronics Engineering student seeking a placement opportunity to apply technical knowledge in circuit design, control systems, and signal processing. Eager to contribute to engineering teams while developing practical skills in an industry setting.

EDUCATION

B.Tech – Electrical and Electronics Engineering <i>Motihari College of Engineering, Bihar Engineering University, Motihari, Bihar</i>	2022 – Present
12th - Science Stream (CBSE) <i>St Josheph's Sr.Sec School,Bihar</i>	2019 – 2021
10th - CBSE <i>St Josheph's Sr.Sec School,Bihar</i>	2018-2019

CERTIFICATIONS & TRAINING

Signal and System – NPTEL (12 Weeks) <i>Indian Institute of Technology Online Certification Program</i>	Jan 2024
Google Cybersecurity Certificate – Coursera <i>Google Coursera Online Learning Platform</i>	Oct 2024
Control Engineering – NPTEL (12 Weeks) <i>Indian Institute of Technology Online Certification Program</i>	Jan 2025

INTERNSHIP EXPERIENCE

Electrical Engineering Intern – NBPDC, MOTIHARI <i>North Bihar Power Distribution Company Limited, Bihar</i>	Dec 2025 (4 Weeks)
- Gained hands-on exposure to power distribution systems and grid operations. - Observed and assisted in maintenance activities of electrical equipment and substations. - Learned about safety protocols and operational standards followed in power utilities.	

TECHNICAL SKILLS

- Circuit Analysis & Design: AC/DC circuit fundamentals, network theorems
- Subjects: Signals & Systems, Control Engineering, Power Systems, Electrical Machines
- Cybersecurity Fundamentals: Network security, risk management, threat analysis (Google Certificate)
- Tools & Software: MATLAB (basic), MS Office Suite
- Core Competencies: Problem-solving, analytical thinking, technical documentation

PROJECTS

Hybrid Wind and Solar Power Generation System (Minor Project)	Feb 2026
--	----------

Designed a small-scale hybrid system integrating solar PV and wind energy sources; studied load balancing and DC bus integration to improve power reliability.
